PROFESSIONAL SUMMARY

Highly motivated Software Engineering undergraduate at the University of Kelaniya with internship experience in full-stack web development, requirement analysis and agile project delivery. Built and deployed two live client systems, a point-of-sale and inventory system and a deed-registration tracker, and an AI-powered adaptive learning platform as my final-year project. Skilled in React, TypeScript, Laravel, PHP, Python, Java, SQL and REST APIs, with a strong foundation in databases, testing, system design and documentation. Proficient in using AI tools such as GitHub Copilot, Cursor, ChatGPT and Claude for coding, debugging and documentation. Recognised for leadership, teamwork, clear communication, adaptability and continuous learning.

EDUCATION

Bachelor of Information and Communication Technology (Hons)
University of Kelaniya | Specialisation: Software Systems

TECHNICAL SKILLS

Languages	Python, PHP, JavaScript, TypeScript, Java, SQL, C
Frontend	HTML, CSS, React, Next.js, Tailwind CSS, JavaFX
Backend	Laravel, Node.js, Express, Flask, FastAPI, REST APIs
Databases	MySQL, PostgreSQL, SQLite, Oracle (PL/SQL basics)
AI & Data	scikit-learn, XGBoost, SHAP explainability
Testing	PHPUnit, Vitest, browser and end-to-end testing
Tools & Cloud	Git, GitHub, VS Code, Postman, Vercel, cPanel hosting, Figma, Canva
AI Tools	GitHub Copilot, Cursor AI, ChatGPT, Claude
Practices	Agile/Scrum, Requirement Analysis, Debugging and Testing, Technical Documentation

EXPERIENCE

Software Engineering Intern – Beaver Creation (Pvt) Ltd Sep 2025 – Apr 2026

- Built the Beaver Creation company website with Next.js, TypeScript and Tailwind CSS and deployed it on Vercel (beavercreation.com).
- Built a bilingual (English/Sinhala) website for DPJ Education Center in Flask, covering 10 subjects with teacher profiles, photo galleries and enrolment enquiries.
- Developed an AI email assistant in Flask with Google sign-in, Gmail inbox sync, PDF/Word document upload and a Gemini-powered chatbot that answers questions about stored emails and documents.
- Built a transactional email service using the Brevo API and a Stripe Checkout payment prototype with three subscription packages.
- Took part in requirement gathering, sprint updates and stakeholder follow-ups in an agile team with developers, designers and QA.

Freelance Full-Stack Developer – Independent 2026

- Built and deployed YASH MOBILE POS, a point-of-sale and inventory system for a mobile accessories shop (yashenterpr.store).
- Built and deployed Nottary-Service, a secure deed-registration tracker for a notarial office (nottary-service.online).
- Handled the full cycle for each client: requirements, design, development, testing, hosting and support.

Volunteer – ICC T20 World Cup 2026, Sri Lanka 2026

- Supported international event coordination and operational workflows in a fast-paced team environment.

Project Intern (Project Management) – International Youth Alliance for Peace 2021

- Supported project coordination and digital documentation; contributed to team reporting.

PROJECTS

HelaIQ – AI-Powered Adaptive Learning & Exam-Readiness Platform | Final Year Project 2025 – 2026
React, TypeScript, Laravel, MySQL, Python (FastAPI, XGBoost)
Bilingual (English/Sinhala) web platform that helps Sri Lankan students prepare for government competitive exams through an adaptive placement test, daily weak-area practice, timed mock exams, eight brain-training games and an explainable machine-learning exam-readiness prediction.

YASH MOBILE POS – Point of Sale & Inventory System | Client project, live 2026
Laravel 12, React, TypeScript, MySQL
Billing, stock, purchasing, returns and profit reporting for a phone accessories shop, with an offline sales queue, thermal/A4/PDF invoices, barcode scanning and role-based staff access. yashenterpr.store

Nottary-Service – Deed Registration Tracker | Client project, live 2026
PHP, MySQL, Firebase Cloud Messaging, SMS API
Secure record of property deeds from submission to Land Registry completion, with role-based access, a full audit trail, staff push notifications and automatic bilingual SMS to buyers and sellers. nottary-service.online

ExamDock – Desktop Exam Countdown Widget 2026
React, Node.js, SQLite
Offline Windows widget that tracks exam countdowns, sends reminders and imports timetables from CSV, Excel, PDF, Word or a photo (OCR).

Dog Run – Browser Game 2026
JavaScript, HTML, CSS
Endless-runner game with physics, double jump, collision detection, sound, touch controls and a saved best score. mini-game-rho-gray.vercel.app

Other projects

- **Hotel Management System** (React, HTML, CSS) – booking with room availability, authentication and an admin dashboard.
- **Library Management System** (Java, JavaFX, MySQL) – desktop app for books and lending with search and authentication.
- **Courier Tracking System** (Python, PostgreSQL) – tracking of packages and couriers with stored data management.
- **Waste Control System** (HTML, CSS, JavaScript) – user and admin roles to schedule waste pickups and report local issues.

CERTIFICATIONS

Bentley Accredited iTwin Developer: Associate
Responsive Web Design – freeCodeCamp
Diploma in English – Esoft Metro Campus
AWS Cloud Essentials for Business Leaders
Diploma in ICT – Esoft Metro Campus

CORE STRENGTHS

Critical Thinking	Problem Solving	Team Collaboration
Leadership	Adaptability	Time Management
Fast Learning	Stakeholder Coordination	AI Tool Utilisation

LEADERSHIP & ACTIVITIES

Vice President, Information Technology Students' Association – University of Kelaniya 2022 – 2023
Committee Member, ITSA – University of Kelaniya 2021 – 2022
Batch Representative, 3rd Year – University of Kelaniya 2024 – 2025
University Colours Awardee, University of Kelaniya 2024
Taekwondo Team Member, University of Kelaniya 2023 – 2026
Senior Prefect, Central College, Anuradhapura 2016 – 2018
Silver Medallist, All Island Open Karate Tournament 2011
